About Family 1st Sunday

It is important to show our children that building relationships with them is important to us (thus the Family First part of the title). It is even more important to show our children that having a relationship with Jesus is important to us as parents. Our goal for Family First Sunday (which will take place on the first Sunday of every month thus the part of the title "first Sunday") is to model ways to share our faith with our children, to enable discussions amongst family members about faith topics, so our kids know how important a relationship with Jesus is.

Thank you to David Van Schaick for designing the logo for Family 1st Sunday.
